PROFILE

Full-stack web developer who decided to follow her passion for learning and Tech after +8 years of project management in advertising and audiovisual production.

I am passionate about bringing the technical and visual aspects of digital products to life and look for the opportunity to expand my skill set to deliver scalable, functional, visually compelling applications that drive business growth and improve user experience in a collaborative environment supportive of growth.

EXPERIENCE

⦿ FULL-STACK DEVELOPER — CODEOP

JANUARY 2022 - APRIL 2022

- + 3 months intensive full time bootcamp covering full-stack technologies: JavaScript ES6+, ReactJS, ReactContext API, Vue.js, Node.js, Express.js, MySQL, HTML5, CSS, Bootstrap 5.
- + Built 3 full-stack projects: an MVP, a Feature Extension and a Group Project.
- + Collaborated remotely with an international team using Agile principles and collaboration tools such as Trello, Git/Github.

⦿ PROJECT MANAGER — BAKERY GROUP

FEBRUARY 2016 - DECEMBER 2021

- + Led the implementation of a standardized project management system for all projects, directly resulting in more department and project efficiency by cutting down 5 hours weekly on manual data entry.
- + Managed and oversaw 5-6 projects (web development, marketing campaigns, etc.) simultaneously from concept to completion, working directly with stakeholders and with all the teams involved to ensure project delivery on time and on budget.
- + Acted as a trusted advisor to a variety of clients (tech, finance, food&beverage) and team members (from marketing to software developers), ensuring high-level of client and team satisfaction and improved effectiveness in project delivery.

PROJECTS

⦿ E-MANAGER — FULL-STACK APP

INDIVIDUAL MVP

A web-based management solution that helps small businesses to keep their orders and clients organized in a simple and fast way using a single platform.

- + End-to-end implementation (SQL database, REST API, dynamic frontend using React Router, UI views and components)
- + Designed and implemented a clean, responsive UI with a dashboard layout to allow easy navigation, simple forms for quick client and repair data entry and tables to display all the necessary information.
- + Built a Search bar to look up and pull any entry from the data with ease.

Built with: JavaScript, React.js, Node.js, Express.js, MySQL, JWT, Bcrypt, HTML5, CSS, Bootstrap 5.
Deployed with Heroku.

PROJECTS

DD LINK — FULL-STACK APP

GROUP PROJECT

A platform that allows freelance designers and developers to connect with each other based on projects of interest and skills. It makes the search for work interactive, social, and without information overload.

+ Implemented user authentication/authorization allowing role-based data display using OAuth2 Google Login, JWT, and local storage.

+ Developed the project matching algorithm (rendering only projects relevant to the user, based on their skills and data stored in a SQL Database).

+ Implemented front-end features (layout/styling, React routing, Forms).

Built with: JavaScript, React.js, Node.js, Express.js, MySQL, HTML5, CSS, Bootstrap 5, Material UI, Google OAuth2, JWT.

ARIADNA SCORDO HANDMADE — FULL-STACK APP

FEATURE EXTENSION

Full-stack app for artisan jewellery maker Ariadna Scordo business to showcase her work and advertise pieces that are available to purchase.

+ Improved overall App UI, responsiveness, and navigation.

+ Added Custom Orders form feature (end-to-end implementation: front-end, API and back-end, data storage SQL DB).

+ Developed the Admin View page to dynamically render custom order requests

Built with JavaScript, Vue.js, Node.js, Express.js, MySQL, HTML5, CSS, Bootstrap5.
